S6,000. Many barns and trees were blown down.

New York, July2d.—Shortly before 6 o'clock this evening a violent storm broke over the city, sweeping through the streets with such strength that walking became almost impossible, while clouds of dust filled the air. An unfinnshed three-story house in Ann street was blown down. The front wall of the brick theater owned by Harry Miner, in course of construction, also fell. It is on the Bowery, opposite Spring street. The workmen escaped injury, having abandoned the building when the storm broke,

Milwaukee (Wis.), July 2d.—A severe storm passed over Ozaukee county at 6 o'clock this morning, demolishing buildings at Necedah, Fond du Lac, Belgium, Fredonia, Cakfield, Lamertine, Princeton, Port Washington, Dartford, Ripon, New Castle, Mayville, Brownsville, Kewaskum and a dozen other towns. In Bergium and Fredonia alone over two hundred buildings, were blown flat. At Oakfield, nine miles south of Fond du Lac, hardly a chimney is left standing. King & Erwin's barn and press were totally demolished, and the loss in the whole village is estimated at \$15,000. The storm was about two and a half miles wide. At Port Washington three men, named Hollander, Soule and French, were drowned. A NEW KIND OF UNIFORMITY. The more the Examiner explains the anxiety. more perilous its position. Its explanation yesterday of why a high rate should prevail on the non-paying North Pacific Coast road and a low rate on the non-paying Folsom route is a marvel of confusion. It says: "There is nothing illogical in maintaining that a short mountain road, constituting an independent line, cannot afford to do business at the same rate that to charge. The conditions are utterly disthe large corporations should be permitted similar. A uniform rate in charges on the Southern and Central Pacific and their leased lines does not preclude a higher uniform rate for the North Pacific Coast road." Ah! Now we have it; there is to be a low uniform and a high uniform rate. This definition of uniformity then is to apply to lines according to control or ownership. If, then, the lease of the Folsom road should be cancelled, and it stand as an independent line, it would immediately come under the "higher' uniform rate. Is that it? The Examiner's explanation reveals exactly what we alleged, that it is a matter of punishing the control, not of doing justice between carrier and shipper. Now, we had entertained the idea that the Railroad Commission was a solemn tribunal, invested with great power, sitting as judge and jury, and given also functions of the party has a past it need not be ashamed of; but it cannot live upon its traditions. It is to do justice, irrespective of persons, controls or corporations. Yet here we have the doctrine advanced for it, that it is just to force a non-paying line good that Republicans cohere and have condown to a ruinous rate because operated by "A," who also controls a paying line; while a like rate shall not apply to a nonpaying line owned by "B." This theory amounts to this and nothing more, that the people where there is a dense population and much business must be taxed sufficiently to enable roads in thinly-settled districts to be run with equal advantage to the people along such lines. This is comand its party Railroad Commission can see it or not, and it is the rankest injustice to the people advantageously situated. A total want of sincerity in the Democratic prelimdiscriminating public can now discern the animus in this whole anti-railroad agitation, engineered by the Democratic party and an honest seeker of honest administration,

HEAR THE WITNESSES

Saved from a Horrible Beath. Up to May last I had spent at least five hundred dollars for treatment by many of the best medical men, without any benefit. I suffered excrutatingly, and all my best friends advised me that the icy hand of death was fast approaching. I caught at S. S. S. like a drowning man at a straw. After taking two bottles I could feel a change for the better. The sores began to discharge freely and the Rheumatism to abate. When I had taken six bottles every sore had healed and my skin began to assume a natural apportance. I persisted until I had taken twelve bottles, large size, and THERE IS NOT A SYMPTOM OF THE DISEASE REMAINING, and I feel as well as I ever did. I have gained twenty-one pounds in flesh, and my friends wonder at my improved condition. I have recommended it to many, and in every instance with complete success I believe that S. S. S. has saved me from a horrible death.
